Data Mining II (D212) – Resource Library

Cheat Sheets

DataCamp (n.d.) Python for data science cheat sheet. DataCamp.

R Studio (n.d.) RStudio cheatsheets. R Studio.

Tutorials

Hayden, L. (2018). Principal component analysis in R. DataCamp.

Jabeen, H. (2018). Market basket analysis using R. DataCamp.

Jaiswal, S. (2018). K-means clustering in R tutorial. DataCamp.

Li, S. (2017). A gentle introduction on market basket analysis – association rules. Towards Data Science.

Paul, S. (2018). K-means clustering in python with scikit-learn. DataCamp.

Sharma, A. (2020). Principal component analysis (PCA) in python. DataCamp.

Books

BRUCE, P. A. (2020). Practical statistics for data scientists. 50+ essential concepts using r and python. O'Reilly Media, Incorporated.   WGU Library.

Larose, C. D., & Larose, D. T. (2019). *Data science using Python and R*. Chichester, NJ: Wiley Blackwell.

Websites

Information Builders. (n.d.). Welcome to the WebFOCUS release 8 technical library.

STHDA. (n.d.). Factoextra R Package: Easy multivariate data analyses and elegant visualization.
